NGRESSIONAL RECORD - HOUSE
February 8, 1968

Mr. SISK. Mr. Speaker, I yield 30 minutes to the distinguished gentleman from Tennessee (Mr. Quillen) and, pending that, I yield myself such time as I may consume.

Mr. Speaker, House Resolution 1058 provides an open rule with 1 hour of debate on 1st reading of H.R. 25, a bill to authorize the Secretary of the Interior, in cooperation with the States, to conduct an inventory and study of the Nation's estuaries and their natural resources. The rule further provides that it shall be in order to consider the amendment in the nature of a substitute recommended by the Committee on Merchant Marine and Fisheries now printed in the bill, and such further amendment as the purpose of this amendment shall be considered under the five-minute rule as an original bill.

The purpose of H.R. 25 is to provide a means for protecting and conserving our Nation's estuarine areas and the waters of the Great Lakes.

The Secretary of the Interior, in consultation and in cooperation with the States, the Secretary of the Army, and other Federal agencies, is authorized and directed to conduct a study and inventory of the Great Lakes, including coastal marshlands, bays, sounds, seaward areas, lagoons, and land and waters of the Great Lakes.

With respect to certain publicly owned lands on Long Island, N.Y., which were studied by the Senate, the Secretary would be authorized to enter into an agreement with the State of New York, or any political subdivision thereof, for the permanent management, development, and administration of such areas.

The Secretary would also be authorized and directed to study publicly owned areas in other States with a view toward recommending to the President the authority to enter into similar agreements for the administration, management, and development of those areas.

The Secretary of the Interior shall submit to the Congress, not later than January 30, 1970, a report of the study conducted, together with any legislative recommendations.

No lands could be acquired unless authorized by the subsequent act of Congress.

The study is authorized over a 2-year period: $750,000 is authorized for fiscal year 1969 and $250,000 for fiscal year 1970. There is no direct authorization for the project to be undertaken on Long Island, N.Y. The estimated additional cost to the Federal Government for the Long Island project is $510,000 over a 5-year period, assuming 50-50 split in total costs, the Federal Government's share would be $510,000.

Departmental views are favorable to the bill as reported, and there are no minority views.

Mr. Speaker, I urge that the rule be adopted, and I reserve the balance of my time.

Mr. Speaker, I yield back the balance of my time.

Mr. SISK. Mr. Speaker, does the gentleman from Tennessee [Mr. Quillen] have any further requests for time?

Mr. SISK. Mr. Speaker, I have no further requests for time.

Mr. Speaker, I move the previous question on the resolution. The previous question was ordered. The resolution was agreed to. A motion to reconsider was laid on the table.
